vocal.uk.com

Trusted to deliver  
your message.

Vocal have the pedigree to deliver a cost effective solution for your businesses communication strategy.

Vocal are a market leading provider of corporate communication solutions including SMS Text, Voice, IVR, Paging and Email and our unique Preferential Mail Service.

Our full two way communication solutions can be integrated via a wide range of connectivity solutions or accessed via our intuitive Web GUI. (Graphical User Interface)

Established in 1998 Vocal has been the carrier of choice for over 1800 business worldwide and has built a solid reputation for providing cost effective, powerful, easy to use and implement business communication tools.

## Vocal, a tried and tested, carrier grade solutions provider

Since the late 1990's, Vocal has been providing messaging solutions to the corporate and public sector. Without doubt, Vocal are the market leaders in the provision of emergency based alerting systems, implemented across the U.K. Its position as the trusted supplier of numerous U.K. Police forces, Vocal are in the unique position of being the sole provider of live Security and Business Continuity information from a number of City Police forces, including the City of London Police and has enabled Vocal to build a strong reputation with its customers, both within the emergency alerting sphere and also with the provision of more general mobile communication solutions.

## iModus – the power to deliver

From mission critical business continuity applications through to corporate messaging solutions, delivered through our unique and powerful iModus system, we have the experience, pedigree, support and range of solutions to ensure that your messaging and communication requirements are implemented and managed successfully, now and into the future.

## Vocal, a commitment to quality

Vocal has established a successful track record in providing mobile communication services to major business in the Public and Private Market sectors. Our commitment to quality of service, products and support has been instrumental in securing a number of high profile, major national accounts within the public sector. In the private sector Vocal can point to a healthy client list across all industries, and are responsible for managing the messaging services for a number of global institutions.

From secure delivery of time-critical information, to business mobile communication services and support, Vocal can provide cost effective, scalable business communication tools.

***Vocal ensure that your message is delivered to the right people at the right time.***
